

Noble Financial Advisory Group

Noblesse Coin KYC, AML, IMFPA and Franchise Pack

Admin and client onboarding forms for registered users, consultants and franchise partners.

Date: 2026-06-14

Important: This document is a pre-launch planning document. It is not a prospectus, not an offer to sell tokens, not legal advice, not tax advice and not investment advice. Issuance, custody, exchange listing or public sale requires written review by qualified counsel and the competent authorities in each jurisdiction.

Registered User Gate

Only registered users may purchase services or use premium areas. Before restricted access, the user must complete KYC, AML/source-of-funds, sanctions screening, consulting agreement and, where applicable, IMFPA and franchise agreement.

Document	Required fields
KYC	Legal name, date/place of birth, nationality, address, company, beneficial owner, ID document, proof of address.
AML / Source of Funds	Origin of assets, bank statements, sale contracts, inheritance documents, corporate accounts, sanctions/PEP screening.
IMFPA	Introducer, mandate scope, fee entitlement, non-circumvention, confidentiality, governing law.
Consulting Agreement	Service scope, no investment guarantee, fees, risk disclosures, data protection, termination.
Franchise Agreement	Territory, permitted website use, brand rules, compliance duty, 30% profit participation to Noble Financial Advisory Group.

Franchise Commercial Term

The franchise partner may use the website feature set without separate feature fees after acceptance. In return, the franchise partner must pay 30% of net profit from the permitted franchise activity to Noble Financial Advisory Group. Net profit, audit rights, payment dates and tax responsibility must be defined in the signed contract.

Franchise Compliance Clauses

The franchise partner may not market Noblesse Coin as guaranteed, risk-free, tax-free or regulator-approved. The partner must maintain KYC/AML files, record client communications, avoid misleading financial promotions and escalate suspicious activity.

Website Admin Clause

Administrator may upload, delete and replace files through the protected admin workspace. Sensitive operator bank or ID details must not be placed in public root files. If an incident occurs, delete or rotate affected files, change admin password and regenerate the integrity manifest.
